

REPORT OF SPACE WEATHER ACTIVITY IN IVORY COAST

GRODJI Oswald Didier Franck
Local Cordinate iswi Ivory Coast

PRESENTATION OF 3 ACTIVITIES

- ▶ 1- Academic activity
 - ▶ 2- organization of the Ivory Coast astro-tour
 - ▶ 3-award ceremony
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

1- ACADEMIC ACTIVITIES

1- TAO Abdoul defended his Master 2 thesis on October 19, 2023, on the topic: "Comparative distribution of impact craters as a function of altitude on Earth and Mars« at the Felix Houphouët Boigny University.

2- The geophysics laboratory meets to find ways of restoring and installing certain measuring equipment (magnetometers, GPS and GNSS stations) for space physics studies.

2- ASTRO-TOUR IVOIRE EDITION 2023

The Laboratory of Physics in Université Félix Houphouët Boigny, and the “Association Ivoirienne d'Astronomie” (AIA) and Space Bus France have organized the Astro Tour Ivoire edition from November 27 to December 28, 2023. The aim of this event was to popularize space science throughout the country. We spoke about space science in high schools, colleges and universities in several regions of the country.

3- AWARD CEREMONY

1- Professor OBROU Kouadio Olivier (Geophysics researcher of Félix Houphouët Boigny) was awarded the second prize for best teacher-researcher of the 2022-2023 academic year by the Ministry of Higher Education.

THANK YOU
