EIM 2013
School ISWI-Maghreb
The Faculty of Sciences of the Earth , Geography and Organization of Territory of l'USTHB
The faculty of Physcis l'USTHB
The Center for Research in Astronomy, Astrophysics and Geophysics (CRAAG)
The National Institute for Post, technologies of Information and Communication (INPTIC)

In collaboration with

The Algerian Society of Geophysics (SAG)

and the support of

International Space Weather Initiative (ISWI)

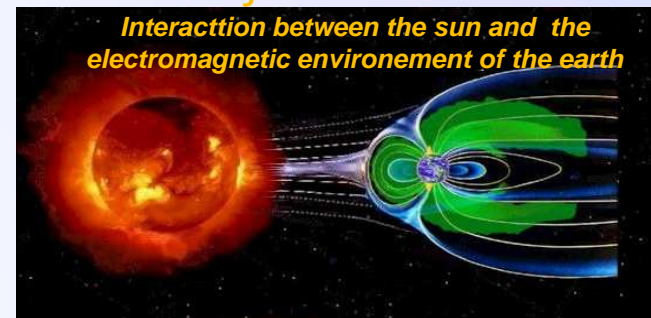

United nations (UN)

Under the patronage of

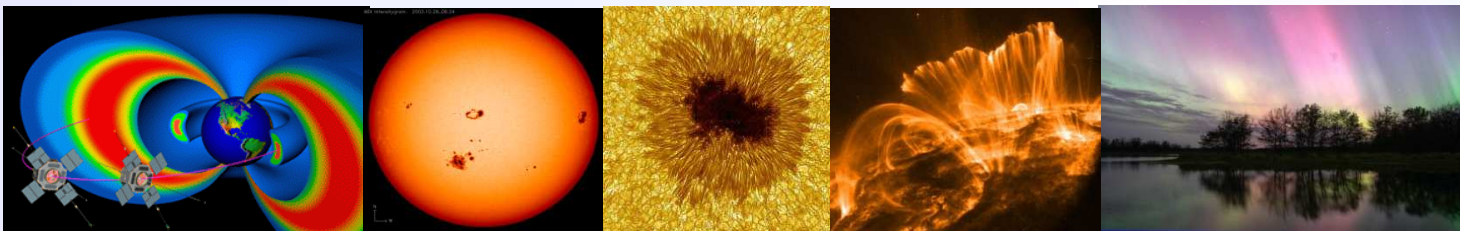

The Direction general of the Scientific Research, and Technical Development

Organize

The First ISWI school of MAGHREB

Pr N. ZAOURARISWI cordinator in Algerisen
Pr C. AMORY- Mazaudier Coordinator of GIRGEA
At USTHB from May 6 to 16, 2013

Objectives

The first edition of the school-Maghreb ISWI 2013 provide an opportunity for young researchers to deepen their knowledge in various areas of Space Weather.

It will also provide an opportunity for researchers and scientists from the Maghreb who want to learn or acquire a new profile associated with the proposed theme. It will acquire the skill to use existing data sets and tools related to studies of Space Weather, participate and contribute to international projects.

In this school, participants will receive specific courses presented by speakers specialized in this area. This school will host sessions (debates and tutorials). Tours of some research centers in the region will be organized. A cultural program is designed to allow participants to visit the city and learn about its history.

The school will also bring together young researchers from different countries to build lasting relationships and fruitful.

Participants are encouraged to present their research in poster format. A one-page summary must be submitted with the request for participation.

This first edition of School Space Weather will be perpetuated by other schools in the Maghreb with a periodicity of 2 years which will update the knowledge of researchers / students in high-tech fields.

Topics

- Knowledge of the physical processes that influence the solar terrestrial electromagnetic environment

- Use of data obtained by the networks of instrument deployed in the context of ISWI

- Use of databases and models useful for Space Weather

- Natural and Technological Risks induced by interaction Solar Activity-Earth Electromagnetic Environment

Organizing Committee

ZAOURAR Naima, (USTHB) Présidente

AMORY- Christine (LPP/UPMC) Vice présidente

HAMOUDI Mohamed, (USTHB)

DRIR Mahrez (USTHB)

OUABADI Aziouz (USTHB)

EMRAN Anas (Univ Mohammed VI MAROC)

OUTEMZABET Rachid (INPTIC)

BOUKERS Saad (INPTIC)

ABTOUT Abdeslam (CRAAG)

DJEDDI Mohamed (USTHB)

DJEBLI Mourad (USTHB)

YAHIAI Yasmina (USTHB)

CHAFA Azzedine (USTHB)

ANAD Fatma (CRAAG)

EDDOUD Abdelkader (AUF/CNF)

BENTOURI Mansour (USTHB)

BOUNAB Mohamed (USTHB)

Scientific Committee

Pr HAMOUDI Mohamed (USTHB) Président

Pr MANDEA Mioara (CNES/France) Vice-présidente

Pr AMORY Christine (LPP/UPMC/France)

Pr ZAOURAR Naima, (USTHB)

Pr RICHMOND Art (NCAR/USA)

Pr KLEIN Karl-Ludwig ((LESIA/ France)

Pr BOCCHIALINI Karine (Université d'Orsay/France)

Pr FONTAINE Dominique (LPP/UPMC/France)

Pr PITOUT Frédéric (IRAP/Toulouse)

Dr ABTOUT Abdeslam (CRAAG)

Pr ABDELATIF Toufik (CRAAG)

Pr DJEBLI Mourad (USTHB)

Pr VILMER Nicole (LESIA/ France)

Pr BLANC ELISABETH (CEA/France),

Pr PETITDIDIER Monique (LATMOS/France)

Dr HILGERS Alain (ESA/Pays Bas)

Pr OUATTARA Frédéric (Univ Koudougou/Burkina Faso)

Dr YAHIAI Yasmina (USTHB)

Dr BERGUIG M. Cherif (USTHB)
