:                               International Conference on Radiation Belts
:                               and Space Weather, Daejeon, Korea.
```

Dear ISWI Participant:

This is Part 2; Part 1 is ISWI Newsletter, Volume 4, Number 58, which is available at www.iswi-secretariat.org -- as are all back issues.

This conference on radiation belts and space weather was hosted by KASI (Korean Astronomy and Space Science Institute).

Attached today are over 200 photos that I took during the conference. Korean hospitality is outstanding and unforgettable !

NASA's RBSP launch is coming up: In August of this year. For the space weather community it is a spectacular and exciting mission using two identical satellites. Great science can be done when their data is correlated with the data of ground-based ISWI arrays.

So stay tuned to this newsletter for more updates on this NASA mission and other major space weather observation campaigns.

Most faithfully and truly yours,

```
